

**Giffels-Webster  
Expert Spokespeople & Media Resources**

**Urban Revitalization and Complete Streets**

**Scott Klein, PE, LEED AP, Executive Vice President**

A self-professed “city guy”, Scott’s passion for urban spaces has evolved into expertise in urban redevelopment, sustainable sites, complete streets and connectivity. In his role managing Giffels-Webster’s Detroit office, he has managed many notable redevelopment projects in the city, such as Campus Martius and the nonmotorized transportation master plan.

**Road and Infrastructure Rehabilitation**

**Scott Ringler, PE, LEED AP, Associate**

Scott has 20 years of experience in the resurfacing of major roads, streetscape improvements, roundabouts, pavement rehabilitation, and green stormwater management techniques like rain gardens. He also is the lead engineer for the City of Ferndale, responsible for the infrastructure overhaul that energized its vibrant downtown culture.

**Suburban Downtown Development and Public Works**

**Loren Crandell, PE, LEED AP, President**

Loren has 25 years’ experience in developing water and sanitary sewer master plans and designing wastewater treatment plants. He can speak to water efficiency and municipal water pressure and reliability. Loren is also a resource on streetscape updates, public works and local roadway projects. He works to provide residents with a better quality of life and help community DDAs achieve their long-term vision. His knowledge of state and federal grants helps make projects a reality.

Giffels-Webster is a collection of people—civil engineers, landscape architects, planners and surveyors—who choose every day to make communities better. The Michigan-based firm serves public, private, and institutional clients throughout the United States with their infrastructure needs. Since its inception in 1950, Giffels-Webster has evolved to offer a broad scope of services centered on helping clients achieve their project or programming goals, including civil engineering, municipal consulting, planning, land development consulting, landscape architecture, and environmental consulting.
