Giffels Webster
Expert Spokespeople & Media Resources

As advocates for bettering the quality of life, Giffels Webster works everyday to improve communities by assisting public, private and institutional clients with their infrastructure needs.

Urban Revitalization, Complete Streets and ADA Compliance

Scott Clein, PE, LEED AP, President/Partner

A self-professed “city guy”, Scott’s passion for urban spaces has evolved into expertise in urban redevelopment, sustainable sites, complete streets and connectivity. In his role managing Giffels-Webster’s Detroit office, he has managed many notable redevelopment projects in the city, such as Campus Martius, nonmotorized transportation master plan and the recently implemented Southwest Detroit Greenlink.

Road and Infrastructure Rehabilitation, ADA Compliance

Scott Ringler, PE, LEED AP, Partner

Scott has more than 20 years of experience in the resurfacing of major roads, streetscape improvements, roundabouts, pavement rehabilitation, and green stormwater management techniques like rain gardens. He also is the lead engineer for the City of Ferndale, responsible for the infrastructure overhaul that energized its vibrant downtown culture.

Land Development

Matt Schwanitz, Partner

Matt has experience in urban planning and retail developments, and is responsible for the majority of GWE’s major commercial and residential projects, including outdoor lifestyle mall trends, Metro Detroit’s underserved retail sector and mixed-use developments. He is a member of the International Council of Shopping Centers, and has led projects like The Village of Rochester Hills, Great Lakes Crossing and Partridge Creek.

Surveying, Mapping

John Redash, PS, Partner

John oversees and directs the day-to-day operations of the surveying and mapping staff, encourages development of new technologies and quality control procedures, and monitors client product satisfaction.

Giffels-Webster is a collection of people—civil engineers, landscape architects, planners and surveyors—who choose every day to make communities better. The Michigan-based firm serves public, private, and institutional clients throughout the United States with their infrastructure needs. Since its inception in 1952, Giffels-Webster has evolved to offer a broad scope of services centered on helping clients achieve their project or programming goals, including civil engineering, municipal consulting, planning, land development consulting, landscape architecture, and environmental consulting. www.giffelswebster.com
